WORK EXPERIENCE

Full-Stack Student Web Developer AgBiz Logic // January 2016 – June 2016

Developed the full-stack of a web application using the Django Python framework, AngularJS, and Karma
Collaborated with a small, startup-style development team to design new features

Applications Engineer Intern Oracle Primavera // June 2015 – December 2015

Created engine that translates CSS to iOS view styles, applying them at runtime with metaprogramming
Developed UI of an iOS application
Updated code to incorporate new iOS 9 functionality
Automated NodeJS tests to bridge with Java API

Web Application Developer Intern Emma, Inc. // March 2014 – September 2014

Optimized & debugged Django web application that imports spreadsheets of data into a PostGres database
Increased app speed by 95% & capacity records by nearly 30x
Collaborated with software development teams within the scrum methodology

Teaching Assistant Oregon State University // January 2015 – June 2015 & September 2016 – June 2017

Assisted & guided students in introductory CS courses through office hours, recitations, & labs
Innovated course improvements

IT/Operations Intern Cequent, Inc. // June 2013 – September 2013 & June 2012 – September 2012

Assisted with desktop support for a 200-person company
Performed maintenance on Unix-based systems
Provided technical customer support
